Summary

Computer Science Engineering graduate with internship experience in SaaS application support, troubleshooting, REST API testing, SQL database validation, and issue investigation. Proficient in JavaScript, React.js, Node.js, Express.js, MySQL, and Postman, with strong analytical and customer-focused problem-solving skills.

Skills

Programming Languages: C++, JavaScript, Python, SQL

Database: MySQL, SQL Queries, Database Validation, CRUD Operations

Technical Support: Customer Support, Technical Troubleshooting, Application Support, Incident Investigation, Root Cause Analysis, Issue Reproduction, Defect Verification, Bug Tracking, Escalation Support, Case Documentation, Knowledge Base Documentation

API & Debugging: REST APIs, Postman, API Testing, Request/Response Validation, HTTP/HTTPS, JSON, Log Analysis, Debugging

Web Technologies: React.js, Node.js, Express.js, HTML5, CSS3

Software Concepts: SDLC, Client-Server Architecture, OOP, DBMS, Authentication (JWT), Agile, Scrum

Version Control: Git, GitHub

Tools: VS Code, Chrome DevTools, Postman

Professional Skills: Customer Communication, Analytical Thinking, Problem Solving, Documentation, Collaboration, Attention to Detail, Time Management

Internship

Frontend Developer Intern

June 2025 – August 2025

ADRS Technosoft

Jabalpur, MP

- Developed and maintained SaaS application features using React.js, Node.js, Express.js, and MySQL in an Agile development environment.

Projects

Market Academy

April 2026

- Built a full-stack SaaS learning platform using React.js, Node.js, Express.js, and MySQL.
- Designed and integrated REST APIs for secure communication between frontend and backend services.

Anjuman-Masjid Management System

May 2025

- Developed a full-stack management application using React.js, Express.js, Node.js, and MySQL for digitizing administrative and financial operations.
- Designed REST APIs, optimized SQL queries, and validated application data to improve system reliability and performance.

Hackathons & Certifications

Hack SRIT 2025 — Anonymous Chat App | Socket.io, AI Moderation

March 2025

- Built a real-time anonymous chat app using Socket.io with JWT authentication and AI-based moderation to block abusive content and ensure low-latency, secure messaging.

Frontend Developer Certification — Coding Thinker | HTML, CSS, JavaScript

- Completed a structured frontend development program covering core concepts of HTML5, CSS3, and JavaScript (ES6+), with a focus on responsive design and modern UI practices.

Education

Bachelor of Technology in Computer Science Engineering

Graduated: June 2026

Shri Ram Group of Institutions

CGPA: 8.17 / 10
