PORTFOLIO

<https://aman-portfolio>

I'm a Computer Science student (2026) passionate about full-stack development and building real-time, user-focused applications. Excited to join MakeMyTrip as an intern to contribute, learn, and grow in a fast-paced, collaborative environment.

EDUCATION

SHRI RAM GROUP OF INSTITUTION

Jabalpur, India

Bachelor of Engineering in Computer Science .

2022 – 2026

GOVERNMENT HIGHER SECONDARY SCHOOL

Amatara, India

12 Class - 70 %

2021-2022

10 Class - 87 %

2019-2020

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Express.js, Node.js, Firebase, MySQL

Version Control: Git, GitHub

Programming Languages: C++, JavaScript

DSA – Strong foundation in Data Structures and Algorithms

PROJECTS

CerebroTrack - <https://cerebrotrack.com>

10/24 – 11/24

- Reduced manual portfolio formatting time by over 50%, helping developers showcase their skills more easily.
- Responsive React.js frontend and real-time backend (Express.js, Firebase), cutting manual input time by 40% via smart data syncing.
- Helped users present their entire developer profile in one place, boosting visibility and strengthening their tech presence.

Anjuman-Masjid Management System -

01/25 – 02/25

- Developed a finance management system for Anjuman-Masjid Gaurella to track salaries, funds, and Jumma income, reducing manual bookkeeping by 90%.
- Create with React.js, Express.js, and Firebase for a responsive UI, secure backend, and real-time data sync.
- Deployed and actively used by the committee, improving accuracy and transparency in financial reporting.

Relevant Coursework

- Data Structures & Algorithms
- Operating Systems
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)
- Computer Networks

Internship

ADRS TECHNOSOFT

May-August,

Frontend Developer

2025

- Designed and developed responsive frontend pages based on predefined UI designs, ensuring a consistent, intuitive, and mobile-friendly user experience across devices.
- Collaborated closely with the backend team to integrate RESTful APIs, performed rigorous functionality and UI testing, and delivered the final application with approval from senior developers.

HACKATHON

Hack SRIT 2025

- Developed an anonymous chat app to enable open discussions without sharing personal info, aiming to reduce fake news.
- Added red/green/white flagging for message credibility and AI moderation via Socket.ai to block abusive content.

HOBBIES

- Reading books and watching the news
- Learning new tools and frameworks online
